SUMMARY

Detail-oriented Packaged App Development Analyst with 2.8 years of experience in CRM, Sales & Service Cloud & integrations. 4X Certified with Salesforce & Microsoft credentials. Skilled in LWC, Agentforce, Prompt Builders, Apex, Flows, Integrations to deliver scalable solutions & automations.

EXPERIENCE

Salesforce Developer | Accenture Solutions Pvt. Ltd. | Nagpur | Nov 2024 - Present

- Developed scalable Salesforce solutions using Apex, Triggers, LWC, Aura, and Test Classes, aligned with client requirements.
- Configured Agentforce and AI-powered chatbots to automate interactions and streamline case handling, improving operational efficiency by ~40%.
- Designed automation solutions using Flows, Prompt Builder, and Template-Triggered Flows, reducing manual effort by 90% for key business processes.
- Integrated Salesforce with external systems using REST APIs, enabling seamless data exchange and process automation.
- Worked with Data Cloud and Omni-Channel to support data-driven engagement and efficient case routing.
- Developed Batch Apex and leveraged Data Loader/Data Import Wizard to process and migrate 500K+ records, improving bulk processing performance.
- Managed Salesforce security and configuration, including Roles, Profiles, Permission Sets, and Validation Rules across business functions.
- Resolved 85% of complex user issues through root-cause analysis and efficient solutions, improving system stability and user experience.
- Collaborated with 10-15 cross-functional teams across Salesforce, business, and integrated applications to deliver scalable solutions within timelines.

Salesforce Administrator | GITCS India Pvt. Ltd. | Bhopal | Nov 2023 - Oct 2024

- Managed a Salesforce-based HRMS and recruitment platform supporting client requirements, candidate tracking, interviews, and consultant deployment.
 - Configured custom objects, fields, relationships, and page layouts for Clients, Job Requirements, Candidates, Vendors, Interviews, and Resource Allocation.
 - Automated recruitment processes using Flows, Approval Processes, Email Alerts, and Assignment Rules.
 - Implemented Profiles, Roles, Permission Sets, and sharing controls to ensure secure, role-based data access.
 - Built reports and dashboards to track hiring pipelines, consultant availability, deployments, and client engagement.
 - Developed LWC for recruiter dashboards and candidate management interfaces.
 - Developed Apex classes & triggers to automate candidate shortlisting, interview updates & resource allocation.
-
